

## FEEDBACK STELA

Name of group member: **Amber**

- *How do you see me as a person:*

I adore the products you have delivered and I am super impressed with how quickly you picked up Unity and just began making things without a worry in the world.

- How do you see me as a teammate:

You are very good at playing the part of someone who keeps the group together. You are very kind and easy-going, making it easier to work out the differences that we all have.

- What do you like to see me do:

I feel that you balanced responsibility for the project as a whole and your own part in it very well, choosing to engage in meetings and exercises that aren't important for your own project. It shows flexibility.

- What do you like to see me do more:

There were a couple of times that we were all WFH and nobody was giving an update on what they were up to on that day. I think that consistently sharing your work will help give everyone peace of mind. I think that you are already doing this pretty well but it doesn't hurt to make it a daily thing.

- *How do you see me as a person:*

I think Stela is a kind and hardworking person that not only has a strong belief in her colleagues but also in everyone she surrounds herself with.

- *How do you see me as a teammate:*

As a teammate, these qualities continue. She is always there to motivate everyone on whatever they would need at the moment and perhaps even give you a helping hand. I believe she really does a good job at being an ideal teammate.

- *What would you like to see me do more: (points of improvement)*

I think points of improvement would be just to believe more in yourself. As much as you motivate others, don't forget about yourself in this journey!

I learned from you to move on when somethings not turning out as you wanted. You showed me a new culture and I've got respect for the way you just moved to the NL to study here. Hope you can see everything in the world you would like to see with your wanderlust. I'm indescribably happy that I met you and I'm thankful that we did so many fun things during this internship.
